ICCCF
INTERNATIONAL CONFERENCE ON
CYBERCRIME AND COMPUTER FORENSICS

Call for abstracts

On behalf of the Program Committee, we invite you to submit an abstract for presentation at the 5th International Conference on Cybercrime and Computer Forensics (ICCCF).

The theme of the 2017 conference is *'Cybercrime Research, Policy and Practice: The Collaboration Imperative'*.

The massive increase in technological developments in personal computing, smart phone and wireless devices in recent years has created significant challenges in the Asia-Pacific region and beyond. This important conference will explore the expansion of technology-enabled crimes and how collaboration can inform technological, legal and policy responses internationally.

Abstracts can address any relevant questions within this broad theme and presenters should choose to present in one of two streams:

- Research and policy
- Practice and technology

Examples of research issues within these streams include:

a) Research and policy
Results of cybercrime research and discussion of related policy issues, including:

- Personal information, privacy and identity misuse
- Intellectual property regulation
- Illegal content in cyberspace
- Online dishonesty
- Regulating the internet of things
- Sentencing cyber criminals

b) Practice and technology
Practical issues and technology affecting cybercrime and its prevention and regulation, such as:

- Computer and mobile forensics
- Resource allocation within law enforcement
- Cyber intelligence sharing

Key dates

23 January	Abstract submissions open
23 January	Registrations open
17 March	Abstract submissions close
14 April	Authors notified of accepted presentations
12 May	Presenter registration
30 May	Early bird registration closes
16 July	Welcome reception
17-18 July	ICCCF Conference

- Data sharing across networks
- Cloud security
- Biometric authentication
- Cyber crime prevention software

Submission

Abstracts must be submitted using the form available on www.icccf2017.com.au and should not exceed 300 words.

The abstract should outline the background, aims and content of the presentation. Abstracts related to research studies should include sections describing the methods, results and conclusions of the study.

If you are having trouble with submitting your abstract, please try using a different browser such as Firefox. On submission of your abstract you should receive an automatic confirmation email.

Submitting authors should be the main presenter.

Authors should indicate if they are submitting under (a) Research and policy or (b) Practice and technology.

Authors should also indicate if they wish to have their full paper considered for further publication:

IEEE Xplore

Those who present in the Practice and technology stream will have the opportunity to be considered for publication and indexing within the Institute of Electrical and Electronics Engineers' (IEEE) Xplore system. Proposals for publication in IEEE Xplore must be formatted using an IEEE-approved template, available at www.ieee.org

Further information on how to submit will be provided on acceptance of your conference abstract.

Special issue of Information Systems Journal

Presenters can submit a paper for consideration, no more than six pages of A4 size, 1.5 lines spacing (max. 3000 words in length) in PDF format. Papers should include an abstract, methodology with a strong theoretical base and a brief outline of the conclusion. Final papers will be due by September 2019 for peer review.

To be considered for this special issue, the paper must be presented for the first time at ICCCF 2017 and not previously published.

More information: http://www.apatas.org/isj/

Further information on how to submit will be provided on acceptance of your conference abstract.

Special issue of Police Practice and Research

Presenters in the Research and policy stream can submit a paper for consideration, no more than three pages of A4 size, 1.5 lines spacing (max. 1500 words in length) in PDF format. Papers should include an abstract, methodology with a strong theoretical base and a brief outline of the conclusion. Final papers will be due by September 2017 for peer review.

Further information on how to submit will be provided on acceptance of your conference abstract.
